What is **VEDIC MATHS**?

Vedic Maths is a collection of tricks to solve mathematical problem sets in a fast & easy way. These tricks introduce wonderful applications of Arithmetical computation, theory of numbers, mathematical & algebraic operations etc.

It is very important to make children learn some of the Vedic maths tricks & concepts at an early stage to build a strong foundation for the child.

^{**}Topics & their Depth vary from Class to Class.

HAPPY PARENTS

Intelli VEDIC MATHS has truly helped in shaping our child's mind & he has started doing better calculations & did well even in his school's maths exam.

> - Parents of Kushaal Ahuja Bansal public school, Kota Class 2

Taking classes of **VEDIC MATHS** helped Digvijaya understand the tricks of calculations & she has started taking interest in solving problems.

I appreciate Vedic Maths experts at IntelliBrain, who handle the young kids patiently & come out with fun ideas to make them accurate in this maths.

Parents of **Digvijaya Bhutani** The Maple Int. School, Hanumangarh Class 1

After Completing **VEDIC MATHS** Course

Your Kid will be able to

Multiply 1547 by 9999 within 10 seconds

Find the Cube of 104

Divide 23152 by 9 in a single Line

Find the Square root of 1764 just by Looking

Solve 98 x 97 in Just 5 seconds

& much more...
