KARTHIK

Grade IV
Lucknow

I found the theory very crisp and easy to understand. The questions were quite interesting & the answer booklet was really helpful. I especially loved the colourful illustrations. Learning with Skool Plus is great fun!

I feel Sreeya's IQ has greatly increased after using SkoolPlus. Even her academic scores have improved. I see newfound confidence in my child. I think all parents should give their child the SkoolPlus advantage.

Along with the study materials of 5 subjects, my Skool Plus box also has a stationery kit, cool bookmarks and even a Certificate of Achievement! I totally love my SKOOLPlus Box.

Thankyou ALLEN IntelliBrain

What I love most about SkoolPlus is that it has helped me become an independent learner. The content is comprehensive and updated. The progress tracker helps me to be organised and keeps me motivated. SkoolPlus is quite advanced!

Thanks to SkoolPlus, I feel well-equipped to crack the Olympiads and other Competitive Exams. The practice questions have helped me to become faster at solving the problems and with more precision.
